

Certification

A separate logo has been designed to signify a bond that has achieved Climate Bond Certification under the Climate Bonds Standard for low carbon investments. The Climate Bond Certified Logo should be used with care and only in accordance with these Guidelines. Clear presentation will assist to reinforce the visual impact and status of Certification for an Issuer.

Always try to place the logo on a white or light coloured background. Make sure there is ample space around the logo. As a guide use a space equal to half the diameter of the globe motif (x) and make sure that this space is left free of any other items.

The Climate Bond Certified mark uses a colour blue distinct from the Climate Bonds Initiative blue

Do not restyle the typographic elements.

Care should be taken on a dark background as the logo may not be legible.

Never reproduce a logo in any colour other than the Climate Bonds Certification blue.
